

12-04-2017

1.What did you do yesterday?

Ana – updated the quality layer

Zé Rafael helped renato with wrapper helped karol with the wrapper algorithm for the design specification

Zé Rafael Inserted all IEEE conferences into the database

Karol

continued to produce the weekly report and to finish the design document

2.What you do today?

Karol : send a e-mail to IEEE about search volume

Ana: started documenting the specification of system requirements

Karol, Ana, Renato and Zé Rafael calculate the tasks that are missing estimates for the sprint 3

3. Is there any impediment on your side?

Some paper isn't in decimal number, it's in roman number this generates duplication

When entering conferences in the bank lacked a conference: DMIN and ICDM acronyms different with equal names
